

## Ivan Van Duyn

- Born and raised in Colton, South Dakota on a farm
  - Grades 1-8 Colton Christian School (4 room schoolhouse)
  - Grades 9-12 Southwest Minnesota Christian HS (265 students)
    - Edgerton, MN
    - (Was 60 mile trip each day one way) (a good story about those trips)
- Attended Dordt College in Sioux Center, Iowa from 1972-1976. Graduated with a bachelor's degree in Education with a Physical Education major and Business Education minor. I got married in 1974 prior to the Junior year of college.
- Received my Master of Arts in Teaching from University of Whitewater in Whitewater, Wisconsin in 1982. I attended six different summers to get the degree (three in Eau Claire, WI and three in Whitewater, WI).

### Work Experience

- Taught at Sheboygan County Christian High School in Sheboygan, Wisconsin from 1976-1992. Enrollment ranged in those 16 years from 100-210 students.
  - (see other document for courses taught and sports coached)
- Taught at Kalamazoo Christian High School in Kalamazoo, Michigan from 1992-2011. Enrollment ranged in those 19 years from 460-250.
  - (see other document for courses taught and sports coached)
- Taught at Mount Vernon Christian in Mount Vernon, Washington from 2011-2017.

### Reasons:

I saw the commitment for Christian education from my parents for all their children. I enjoyed the school environment growing up and loved learning. My involvement in sports gave rise to the interest in physical education and my high school class in accounting peaked my interest in the business courses. I was always aware that I might not get a job if my only interest was Physical Education!

My master's work in the late 70s and early 80s got me started in the technology area. The first spreadsheet (Visicalc) and word processing (WordStar) got me started in the computer world. I have been **learning** ever since!!

### Thoughts of Mount Vernon Christian:

After the layoff because of decreasing enrollment from the previous school, God had something in mind for us. God's timing is impeccable and the fact that Jeff Droog knew me from his tenure in Kalamazoo, Michigan, is evidence of that!

With my experience in some facets of the technology world and the need for a technology person at MVC it seemed like a good fit. The learning curve has been steep but the staff has been receptive to my assistance, my vision, and my service. I was prepared for the small school experience because of the job in Sheboygan, Wisconsin. God does great work at MVC and I have been on the receiving end of it many times! To God be the glory!

## Ivan Van Duyn

<b>Sheboygan County Christian HS-1976-1992 (WI)--16 years</b>	
<b>Classes taught</b>	<b>Sports Coached</b>
Typewriting-Keyboarding	Varsity Girls BB-1976-1977
